

STERI-PLAS PTY LTD WORK HEALTH & SAFETY POLICY

STERI-PLAS PTY LTD manufactures Injection Blow Moulded Plastic Bottles designed for Pharmaceutical and Personal Care Products.

It is the policy of Steri-Plas Pty Ltd to ensure that a safe working environment is established and safe work practices are implemented and maintained.

A comprehensive approach comprising risks identification, equipment and job redesign, training and education has been adapted to effectively manage the risk of employee's safety and health related issues.

Steri-Plas Pty Ltd will ensure that:

- All statutory requirements are complied with
- An Occupational Health and Safety Plan is developed
- All employees, visitors, and contractors are aware of appropriate information and control measures available
- All employees comply with agreed Safe work Practices
- All employees receive appropriate training and education on WH&S issues
- All plant is designed and constructed so that risks are eliminated or minimised
- Injured / ill workers will be given the opportunity to recover and return to work to their fullest physical, psychological, social, vocational and economic usefulness of which they are capable through the rehabilitation programme

Supervisors regularly check that work and workplaces are safe and incidents or hazards reported to them are investigated and dealt with.

Employees should comply with all statutory requirements, established workplace procedures and cooperate in all activities at the workplace to minimise health and safety risk. We utilise the consultative process to identify and implement improvements in the workplace.

The WH&S procedures and practices define the systems of management we have established to provide a safe and healthy workplace.
